📄 PROFILE

Motivated and detail-oriented **.NET Developer (Entry Level / Intern)** with a strong foundation in **C#, ASP.NET Core, Entity Framework**, and **Web API development**. Skilled in building and integrating CRUD operations using **Swagger** for API testing and **SQL Server** for backend data management. Experienced with **Blazor** and **MudBlazor** for creating interactive and user-friendly web interfaces. Completed academic projects including a **Student Details Management System** and an **Inventory System for a Mart**, showcasing solid understanding of **OOP concepts, data handling**, and **API communication**. Eager to contribute to a professional development team, learn modern .NET technologies, and grow as a full-stack developer in future.

📄 CERTIFICATES

CCNA – Cisco Certified Network Associate
2020

.NET Web Development (ASP.NET Core & Web API)

- Learning modern .NET development with C#, Web API, Entity Framework, and CRUD operations. - 2025.

🎓 EDUCATION

bachelor in computer science

Sir Syed university of engineering and technology
06/2021 – 09/2025 | Karachi, Pakistan

Intermediate

Mehran Degree Collage
2018 – 2019 | Karachi, Pakistan

Matriculation (Science Group)

Beacon Askari School
Karachi, Pakistan

🧠 SKILLS

framework and technologies

- ASP.NET Core
- Entity Framework Core
- MudBlazor
- Web API

Databae

- Microsoft SQL Server
- Basic knowledge of database design and CRUD operations

Tools and Platform

- Visual Studio / JetBrains Rider
- Swagger
- Git / GitHub

Concepts:

- Object-Oriented Programming (OOP)
- RESTful APIs
- CRUD Operations
- Data Binding

PROJECTS

Student Details Management System

Blazor WebAssembly | ASP.NET Core

Web API | Entity Framework Core

05/2025 – 06/2025

- Designed a CRUD-based system to manage student information using Blazor WebAssembly and ASP.NET Core Web API.
- Integrated **Entity Framework Core** for database operations and **Swagger** for API testing.
